

Under the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number.

REISSUE APPLICATION DECLARATION BY THE INVENTORS

Docket Number (optional)

125.028USR1

As a below named inventors, we hereby declare that:
Our residences, post office addresses and citizenships are stated below next to our names.
We believe we are the original, first and joint inventors of the subject matter which is described and claimed
In patent number 6,278,263, granted August 21, 2001, and for which a
reissue patent is sought of the invention entitled

MULTI-PHASE CONVERTER WITH BALANCED CURRENTS

the specification of which

☒ is attached hereto, including a preliminary amendment dated January 9, 2002.

☐ was filed on _____ as reissue application number _____
and was amended on _____
(if applicable)

We have reviewed and understand the contents of the above identified specification, including the claims, as amended by any amendment referred to above.

We acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

We verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

☐ by reason of a defective specification or drawing.

☒ by reason of the patentee claiming more or less than he had the right to claim in the patent.

☐ by reason of other errors.

At least one error upon which reissue is based is described below: If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:

This reissue application is based on an error in that the applicant and applicant's attorney failed to appreciate the full scope of the invention and thus claimed less subject matter than could have been claimed. The issued claims contain limitations that are not essential for practicing the broad teachings disclosed in the original application. Thus, this reissue application is intended as a broadening reissue.

In one example of this error, issued claim 9 includes a specific sequence of operations used to adjust the channel currents. The claims presented in this reissue application have a broadened scope compared to the issued claims with respect to the sequence of operations that provide the desired control of the channel current.

2000-01-09 10:01:17
